ASSOCIAZIONE ALBERGATORI DELLA PROVINCIA DI MANTOVA

Like never before, we hear, from both individuals and groups, of the necessity for a concrete vision of the present and the future.

Global communications inform us about what is happening, even beyond our private and social confines, continuously demonstrating the multiplicity of problems happening everywhere in the world.

We hear of increased insecurity, often the consequence of the self-interested actions of individuals or groups.

We all feel that we need heightened security for our own lives, as well as the lives of those closest to us. The future can still bring solutions if individuals apply themselves.

For these reasons, it is fundamental to keep up an ongoing reflection and debate on the ethics of personal and collective actions, with regard to all aspects and dimensions of life. It is through personal and shared behaviors that we can change the future.

**Alimentation:** sustainability, informed consumption, production policies, social dynamics

**Environment:** renewable energy and recycling, sustainability and eco-compatibility, deep ecology

**Bioethics:** respect for life in medical and scientific research

**Construction and Urban Planning:** green construction and architecture technologies

**Art and Communication:** languages for the diffusion and internalization of shared ethical values

**Economy:** Fair Trade, downsizing, critical consumption, fair economies, ethical financing

**Inter-Religious Dialog:** essential points for peaceful co-existence and harmony between religious faiths

**Animal Rights:** dialog on respect for non-human life

**Human Rights:** dialog on global human rights

**Sport:** responsibility and ethics in sport

**Social:** social and civic responsibility, work ethic, ethics in the workplace

The first scheduled appointment of the event honors the participation of local and international government representatives, ONG associations and accredited professionals.

Other organized events will include: meetings, conferences, debates, stands, exhibitions, workshops, courses and film projections.

This project has been launched to create a continuous forum with the aim of reinforcing the principles on which it was founded. Ethics Expo was born with the intention of becoming an itinerant event, with successive appointments being held in countries around the world.

The first appointment will be held in the City of Mantova (Mantua), where the founding members of Ethics Expo first met. The city is characterized by its important role in history and its artistic and cultural value.

## Meetings, debates, courses and conferences
